

AS16 Mary's Maps

Mary Yates

Tuesday 4 March, 9.30am

Mary is a local artist and researcher and has created hand-drawn watercolour maps of significant heritage places and sites in Western Australia, for local governments and others.

Her colourful maps are well researched, historically accurate and visually engaging. In this talk we'll learn how Mary's map journey evolved and ultimately became the pinnacle of her work. We'll follow this story of serendipity visually via Mary's beautiful maps.

AS17 Transition to Renewable Energy

Saleh Kafami

Friday 4 April, 10 - 11am

Climate change has brought the energy industry to a major turning point, as we head towards net zero emissions and fossil free energy production by 2050. This requires a major structural change to energy supply and consumption, with renewable energy sources such as sun, wind, hydrogen and waste, along with recycling, leading the transition from fossil fuels. Saleh, a professional energy engineer, will explain how the world is moving in this direction.
